

2008 brought changing times for our America...election of a new president, mortgage buyouts/bailouts, ups and downs of Wall Street and the Dow. When transition is in place, it is human nature to stop our daily routines until we understand how our families and businesses are effected. During transitions, I reflect to the beginning of Lil Glenn Company, notice the improvements of downtown Greenville from 1992 to the present...how so much has changed but the roots remain the same. I recognize that good follows change, opportunities arise, and we embrace new beginnings.

During 2008, the Glenn family added John David Hauser and Pearson Brody Glenn to our clan, we are proud and blessed with their presence. During changing times, we grab ones we love and ones who love us, remembering they are always our roots...just as each of you are for me. Lil Glenn Company, LLC is making a contribution for 2008 to Clements Kindness in honor of our clients, families and friends. Many hopes for a peaceful holiday season and many beginnings for 2009.
